Allowable Subject Matter

1. Claims 1-10 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art neither anticipates nor renders obvious a tool holding and working piece-clamping assembly for a machine with a tool as claimed in independent claim 1, specifically wherein the combination of limitations of independent claim 1 includes the working piece-clamping device and tool holding device with the structure as claimed.

Examiner notes that it is well known in the art to have a tool holding device, or a working piece-clamping device as is shown by the cited prior art.

For example, US Pat. No. 3,650,522 (Wermuth et al., hereafter '522) discloses a workpiece clamping device with a stand 13, driving device 23, threaded rod 2, brake (see area 40, and col. 3, lines 27-42, for example).

However, '522 does not disclose the specific structure claimed of the working piece-clamping device or the limitations of a tool holding device.

The prior art does not anticipate the combination of limitations with both the working piece-clamping device and tool holding device with the structure as claimed in independent claim 1.

Furthermore, there is no prior art, either alone or in combination, that would render obvious the claimed invention of independent claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
